Introduction

My eSKiLS is an exciting tool that enables you to deliver training to your learners.

At the heart of its design and reporting is easy access, learner motivation and educational rigour.

My eSKiLS is a web based learning portal; based on a framework that has a configurable database system used by over 50,000 organisations world-wide.

It is highly flexible to integrate and amalgamate around your training needs.

My eSKiLS will enable your learners to easily gain access to e-Learning catalogues
... **ANY TIME, ANY PLACE, ANY PACE...**

What is it?

My eSKiLS is a learning management system that has been designed to help learners and administrators. It provides:

- Automated and centralised course administration
- Easy access to your eLearning courses
- High learner engagement using various interactive learning tools
- Bookmarking and tracking tools of course progress
- Measurement and demonstration of learning through module assessments
- Records of course completions and historical records
- Evaluation and measurement of learner feedback and course effectiveness

My eSKiLS components

- 1. Learner Management**
Assigning, running and managing courses
- 2. Learner Tracking**
Bookmarking, recording learner progress
- 3. Learner Assessments**
Objectively testing and recording learning
- 4. Learner Certification**
Automated congratulation to learners
- 5. Learner Reporting**
Measuring progress & completion of learners
- 6. Learner Feedback**
Evaluating learners feedback experiences
- 7. Learner Administration**
Automating activities of learner administration

Key Features

1. Easy to use - Hosted Web Access offering learning Any Time, Any Place, Any Pace
2. Feel confident with safe and secure access logins for your learners and administrators
3. Enormous time savings using bulk automation administration functionality
4. Comprehensive learning information available at all times - tracks and reports hierarchically at learner, department and organisational levels
5. Objectively manages, measures and demonstrates your eLearning risk compliance

How it works

My eSKiLS is a managed learning portal. It is a web hosted system that sits outside your own organisations IT environment.

It is intuitive to set-up and use, both for administrators and learners. It has two levels of access – administrator and learner.

The set up is easy and straightforward – you can control your entire learner administration from your desktop, setting up new courses, assigning learners, inviting learners, communicating to learners, monitoring and chasing up learners, reporting on learners, controlling and measuring training compliance. It will objectively measure course learning effectiveness.

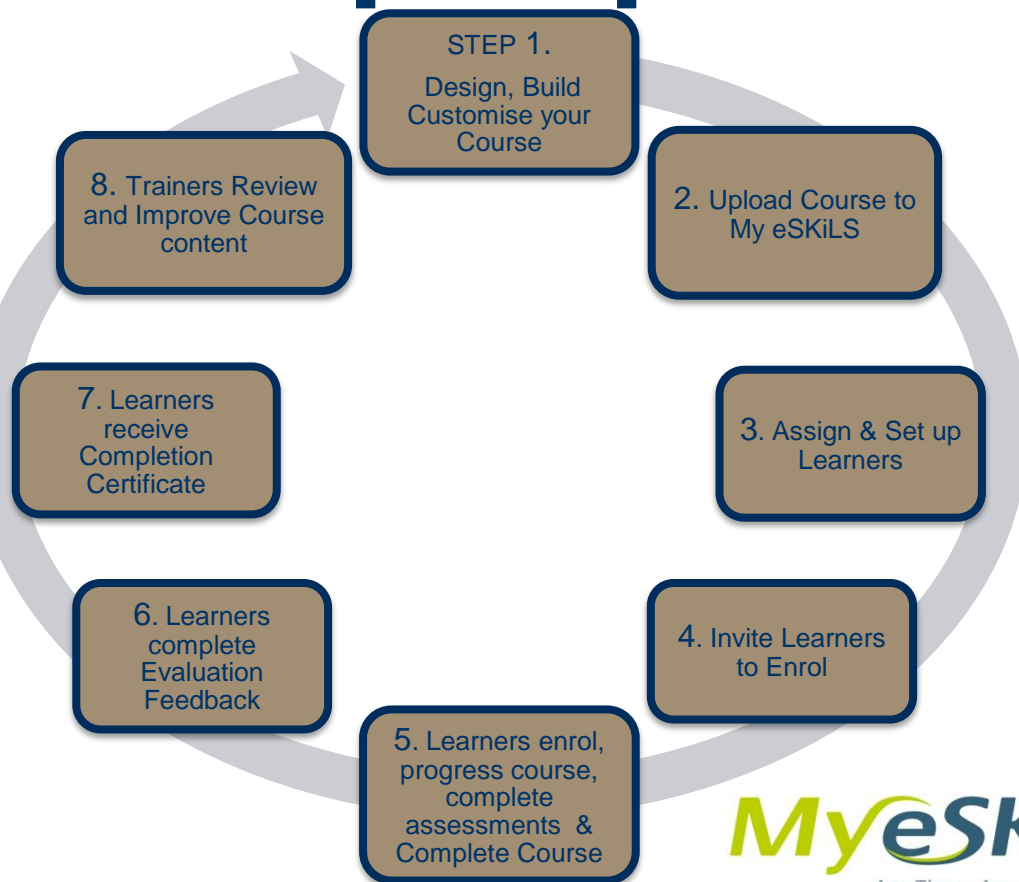

It is self paced and very easy for learners to use

MyeSKiLS

Any Time - Any Place - Any Pace

Set up steps

Easy set up steps to running
your elearning

Starting a course

Learners simply get started by:

1. Responding to an automated invitation
2. Logging-in to a web page
3. Selecting and launching a pre-assigned course that has been set up for them by the training administrator

Training administrator automation

- Assigning courses – learners receive automatic email notification on course enrolment
- Course progress reminders – learners can be automatically sent email reminders
- Learner data can be easily imported or exported in bulk to/from spreadsheets
- News Bulletin boards enable immediate communication capabilities to learners
- Course cancellation - learners get automatic email notifications
- Course completion – learners automatically get congratulated with email certifications

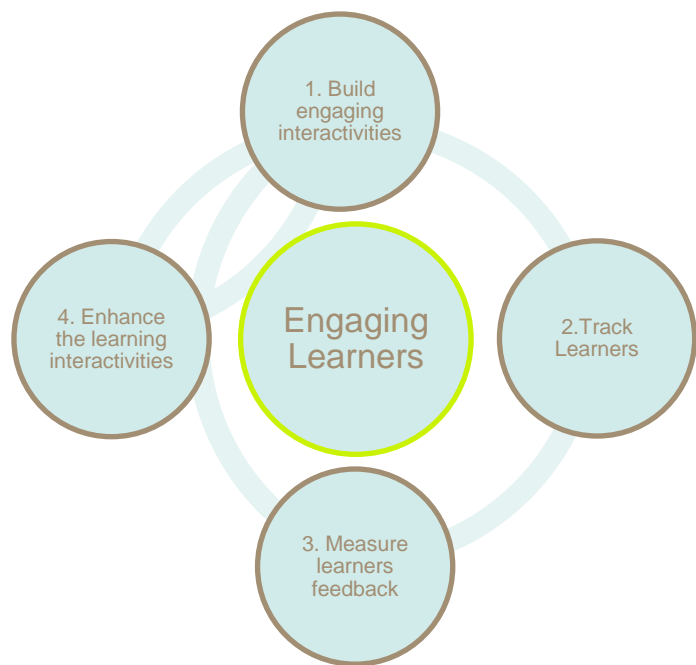

My eSKiLS capabilities

- It can support both your classroom and online training administration.
- It is highly scalable and interoperable
- It is proven to be robust, have a long life and support huge learner numbers
- It is a highly cost effective solution - you will only pay for what you use
- My eSKiLS range of flexibility allows the system to integrate around your organisation
- Courses run from My eSKiLS will run off any SCORM compliant platform in the future.
- It provides rich customised reporting capabilities
- It imports and exports data easily

Managing educational rigour

Our My eSKiLS and course design approach to managing learning is underpinned through adherence to 5 main learning theories:

1. **Bloom's** :Taxonomy
2. **Gagne's** : Nine Events of Instruction
3. **Keller's** ARCS model for: Learner Motivation
4. **Bersin's** Five measures for: e-Learning Effectiveness
5. **Kirkpatrick's** Four levels: Learning Evaluation Measurement

We offer 4 levels of learning interactions that map to a variety of learning situations – from basic to character animations.

We provide customised module assessment strategies.

My eSKiLS exclusive feedback reporting functionality enables you to continually evaluate your learners' experience by objectively measuring and constantly improve your e learning courses- see our sample reports.

Compliance Management & Reporting

My eSKiLS is a powerful platform to consolidate ALL your compliance tracking and reporting for:-

1. Solutions e-courses
2. Your in-house e-courses
3. Instructor-led courses
4. 3rd Party e-courses

Automated learner feedback reports

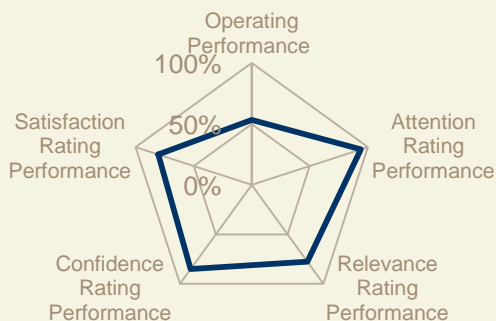

My eSKiLS adopts The John Keeler's ARCS learner motivational e-Learning methodology.

It automatically measures the learners reaction against four motivational parameters:

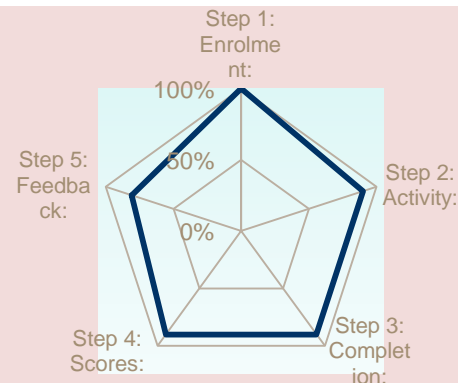

1. ATTENTION
2. RELEVANCE
3. CONFIDENCE
4. SATISFACTION

My eSKiLS adopts The "Bersin Five Step Program measures of eLearning effectiveness:

- Step 1: Enrolment: "Is the audience showing up?"
- Step 2: Activity: "Are they progressing?"
- Step 3: Completion: "Did they finish?"
- Step 4: Scores: "How well did they score?"
- Step 5: Feedback: "How did they like it?"

MyeSKiLS
Any Time - Any Place - Any Pace

Summary

It is a platform that can run all your e courses to thousands of staff
It is easy to use and Learners simply need web access

It provides enormous Training Department automation
It a learning tool that enables Trainers to easily manage and evaluate courses

My eSKiLS is SCORM industry compliant and can run all your eLearning
It can be customised to suit your organisational needs
